Installation units made of plastic, quadrangular
Assembly instruction

1 | Screed floors
For screed covered systems remove shuttering unit and mount installation unit directly into the installation opening.

2 | Hollow space- and raised floors
For hollow space and raised floors mount installation unit directly into the installation opening.

3 | Remove hinged cover
Open cover completely, pull firmly forward at the right side and loosen from hinge joint with a screwdriver.

4 | Mounting claws
Mount the enclosed standard claw fasteners (range of claws 30 to 50 mm) into the acceptance in the frame.

5 | Fastening the installation frame
Insert frame into installation opening from the top and tighten the pre-assembled claws with a crosshead screw. Check to ensure the frame fits tightly.

6 | Claws
Custom-made applications require the use of claw UDKS 40-80. If that is the case, the pre-assembled claws are removed and replaced. Turn claw body so that the frame can be inserted from the top.

Quadrangular installation units, external dimension 258 x 258 mm or 258 x 184 mm, for installation of up to three device containers.
7 | The use of claws
The claws UDKS 40-80 stretch under the raised floor panel, into the screed or into the cover plate of the floor box.

8 | Inserting device containers
Click device containers as deep as possible into the lock-in leads.

9 | Lock-in leads
Lower the device container gradually down to 30 mm.

10 | Minimum installation height
Minimum installation height 74 mm and 87 mm for device plugs up to H = 35 mm.

11 | Maximum installation height
Maximum installation height 104 mm for device plugs up to H = 50 mm.

12 | Loosen device container
Insert screwdriver or mounting lever between frame and device container. Loosen snap tab and remove device container.

13 | Insert hinged cover
Attach opened hinged cover at the left back side, push firmly to the back on the right side and snap into hinged-joint.

14 | Glue in bottom covering
Cut bottom coverings up to 8 mm accurately and glue to the steel insert. Optional lid insert H = 3 mm.

15 | Opening lever
Self-locking opening lever is behind the cable outlet.
Installation units made of plastic, quadrangular
Assembly instruction

16 | **Cable outlet**
Swing around carriage cover by 180° and snap in.

17 | **Lead cables through**
Lead cables through the open cable outlet.
